*Hard-working recent college graduate with a Mathematics degree. I am willing to enrich significantly my knowledge in conjunction with various postgraduate programs. Highly efficient in problem-solving, analytical, creative and critical thinking skills in order to successfully fill the Junior Data Scientist role at your company. Cooperative spirit, in view that the specific characteristic is considered vital for the prosperity of a company.*

## EDUCATION

### Bachelor In Mathematics

National and Kapodistrian University of Athens, Athens, GPA 6.48, graduated July 2021

### Data Analytics

College Link, Athens, Expected graduation Sept 2022

### ELIC Professional Certificate of Computer Skills

Expected graduation Aug 2022

English Level B2

## RELEVANT COURSEWORK

- Statistics
- Probabilities
- Python
- Linear Algebra
- Calculus
- Vector Calculus

## ADDITIONAL SKILLS

- Excellent Communication
- Great Math Skills
- Critical Thinking
- Time Management
- Team Player
- Ability To Multitask
- Statistical Analysis
- Data Analysis
- Data Science with R Programming
- Independence and Initiative
- My Sql
- Microsoft Excel Data Analysis
- Problem-Solving
- Dependable and Reliable
- Team Leadership
- Positive Attitude
- Computer Skills
- Outgoing and Friendly
- Variance Analysis
- Attention to Detail
- Python Programming

## PROJECTS

A project in statistics named 'Comparison of Two Methods about creating confidence intervals in Binomial Distribution'

## FUTURE PLANS

One of my main goals is to take a course in Data Analysis with Python and a master in Data Science and Machine Learning
